7 November 2023

DFES WORK HEALTH AND SAFETY ONLINE INDUCTION

DFES has introduced a new online work health and safety induction.

The new online work health and safety induction was developed in consultation with workers and provides information and guidance on how we can meet our shared responsibilities to maintain a healthy and safe workplace in accordance with the *Work Health and Safety Act 2020 (WA)*.

To ensure all workers are familiar with their obligations under the *Work Health and Safety Act 2020*, all existing staff and contractors will be automatically enrolled in eAcademy and are required to complete the work health and safety online induction.

Existing DFES volunteers will also be automatically enrolled and are encouraged to complete the induction (not mandatory).

All new DFES staff, volunteers and contractors will be required to complete the work health and safety induction as a component of their DFES induction pathway.

For more information, please contact Health and Safety Services via email hss@dfes.wa.gov.au
