

DFES General Circular No: 38/2021

File: D15793

7 March 2021

REGISTRATIONS FOR COVID-19 VACCINE NOW OPEN

To all staff and volunteers

The WA Department of Health (WA) has advised DFES staff and volunteers can register online via this [registration link](#) to receive their COVID-19 vaccination from Monday 8 March 2021.

This includes all DFES corporate and operational staff and volunteers from all services, including Bush Fire Brigades.

Personnel can register to receive their vaccination at the clinic set up at the Perth Convention and Exhibition Centre and some regional clinics from Monday 8 March 2021. WA Health will continue to open additional vaccination clinics in Perth Metropolitan and regional locations over the coming weeks.

You will be required to register online and provide your personal details, select a date and time to be vaccinated and when attending the vaccine clinic, bring the following items:

- Personal ID that shows your date of birth (i.e. driver's license or passport);
- Medicare card; and
- Proof of your role in the fire and emergency services.

The following will be accepted as proof of your role in fire and emergency services:

Corporate staff and career firefighters

- Uniform or your DFES ID card

Volunteers

- Uniform or your volunteer ID card

If you do not have a Volunteer ID card you can print or show your profile from within the Volunteer Hub. To do this:

[Log onto the Volunteer Hub from your desktop/laptop or mobile](#)

- If accessing from a desktop / laptop:
 - Go to My Profile in the top right-hand corner
 - Print the page using the print function on your internet browser
- If accessing from a mobile device
 - Select My Details at the top of the screen and then select My Profile
 - Show this screen when you attend the clinic

If you have not previously accessed the Volunteer Hub or do not know your Volunteer ID number, you can contact your [DFES regional office](#) who will be able to provide you with your login details.

Once you have registered to receive your vaccine, you will be sent a Pre Vaccination Factsheet from WA Health with instructions about attending the clinic and information about what happens after you have received your first vaccination.

DFES has been advised the AstraZeneca vaccine is being offered through this rollout. Further information about the vaccines can be found on the [Healthy WA](#) website.

WA Health advises COVID-19 vaccines will help to reduce the spread of infection and severity of the illness. While the vaccination is not mandatory, having the vaccine will help protect you, your family and our community from the disease. These vaccines are being administered all around the world, and have been through extensive trials and approvals, proving they are effective and safe.

The COVID-19 pages on the [Intranet](#) and [Volunteer Hub](#) includes information about the COVID-19 vaccination program and updated Frequently Asked Questions. If you have any questions or concerns please contact covid19@dfes.wa.gov.au.
