MICS & SIRENS – DFES’ Brand New Podcast

I am pleased to announce the launch of *Mics & Sirens*, DFES’ first official podcast.

This eight-part series offers a deeper look into the people, purpose and operations that shape Western Australia’s fire and emergency services. It shares the voices of those on the frontline and behind the scenes — across prevention, preparedness, response and recovery.

Each episode explores different aspects of our work, from major incident response and recovery to capability development and innovation. It provides an opportunity to hear directly from the people who help keep our communities safe.

The first episode is now available on [Spotify](#) and [Apple Podcasts](#). New episodes will be released weekly over the next eight weeks.

I encourage all staff and volunteers to listen, share and reflect on the stories and perspectives of your colleagues across the State.

Thank you for the continued dedication you bring to your roles and the communities you serve.

If you have feedback or suggestions for future episodes, please contact internalcomms@dfes.wa.gov.au.
