**2024 Bushfire Community Day – Save the Date!**

The Bushfire Centre of Excellence is excited to announce that the annual Bushfire Community Day is heading to the Perth Hills and will be held on Sunday 6 October 2024 at the Kalamunda Community Centre.

Located in Hedley Jorgensen Park, the Kalamunda Community Centre is a bespoke venue immersed in the bush offering amazing indoor and outdoor spaces.

In collaboration with the City of Kalamunda and the DFES Metro South East region, the Bushfire Centre of Excellence team will host the free event that offers Western Australian community members the opportunity to learn about bushfire, meet with emergency services personnel and enjoy a fun day out with the family.

The key focus of the Bushfire Community Day is to promote all things bushfire, specifically the preparedness actions that the community need to take ahead of each bushfire season.

Through informative sessions and interactive exhibits, the event provides the opportunity for DFES and partners to inform, support and guide Western Australians to prepare for bushfires with a range of educational products and materials.

As per previous years, any DFES business areas interested in participating can submit an expression of interest. Stay tuned for further updates and the EOI to be advertised in the coming months.

**EVENT DETAILS:**

- **Date:** Sunday, 6 October 2024
- **Time:** 10am to 3pm
